11 DESIGN CONCEPT

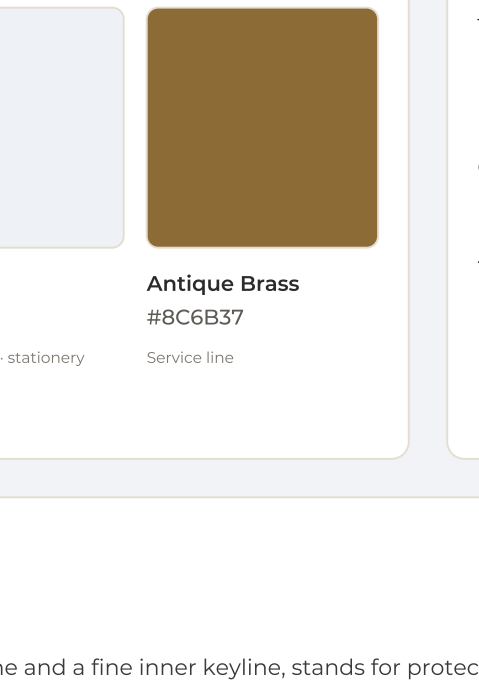

The Assurance Crest

A classic heater shield, drawn with a strong outer keyline and a fine inner keyline, stands for protection: compliance kept in order, filings defended, and clients represented with authority. Inside, the firm's initials form a crest monogram: a precise geometric W in navy beside a perfect brass O, drawn at one height and one stroke weight so the two letters read as a single, balanced mark. CPA sits beneath on a fine brass rule. With the service line Tax · Audit · Attestation, the identity states exactly who the firm is and what it does.
