Manrope SemiBold · Descriptor & seal text

Seal lettering is set on a true circle and outlined. Fonts are open-source (SIL OFL) and free for commercial use.

11 DESIGN CONCEPT

The Seal

For a licensed CPA firm, a seal carries exactly the right message: an official mark of review, verification and professional responsibility. The WO monogram, in a high-contrast classical serif, sits at the centre of a precisely drawn double ring with the firm's full name set around it on a true circle. Oxblood and antique brass give the identity the weight of an established practice, while the generous spacing and fine rules keep it refined rather than ornamental. The seal works on its own as a stamp of approval on reports, engagement letters and certificates.
